1 Check the Box Contents

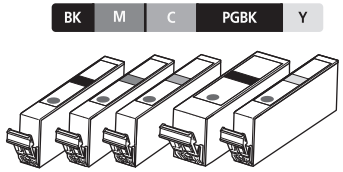
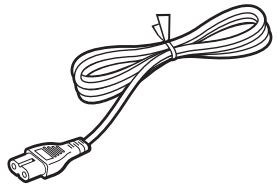
Print Head



ink tank



power cord

- Manuals
- Setup CD-ROM (containing the drivers, applications and on-screen manuals)
- Warranty
- MP-101 paper (for Automatic Print Head Alignment)

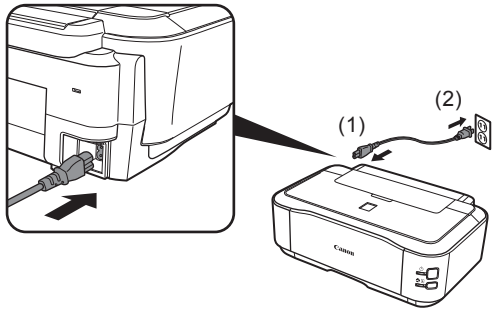
- Before turning on the printer, remove all the protective sheets.

- A USB cable is necessary to connect the printer with your computer.

Downloaded from ManualsPrinter.com Manuals

2 Turn the Power On

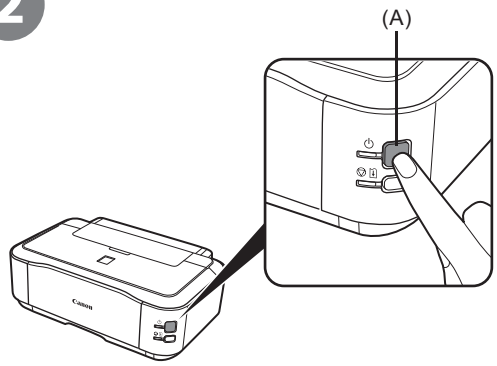
1



Plug in the power cord on the left side at the back of the printer and connect the other end to the wall outlet.

- Do NOT connect the USB cable at this stage.

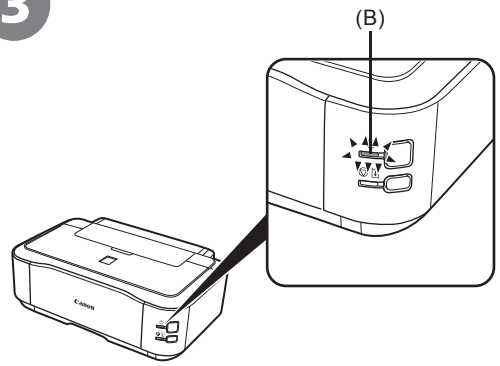
2



Press the **ON** button (A) to turn on the printer.

- The printer may make some operating noises. This is normal operation.

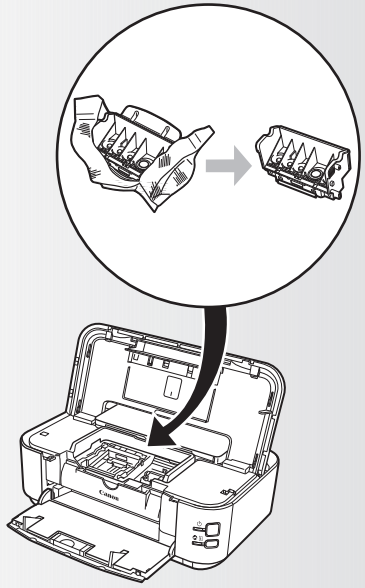
3



Confirm that the **POWER** lamp (B) lights green.

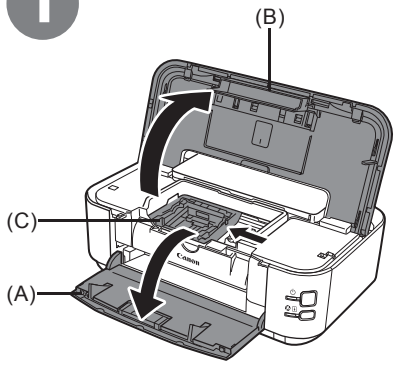
Downloaded from ManualsPrinter.com Manuals

3 Install the Print Head



- Do not handle the Print Head roughly such as applying them excessive pressure or dropping them.

1

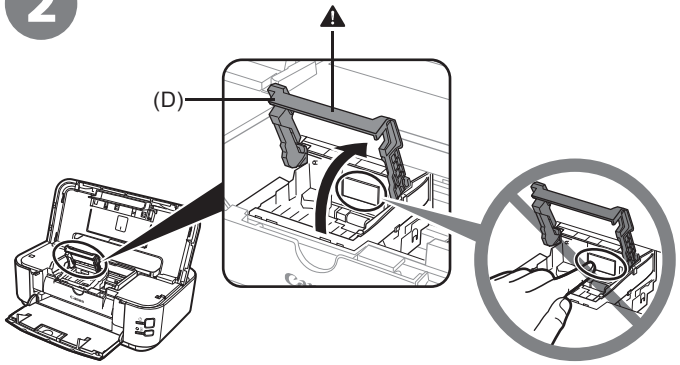


Open the Paper Output Tray (A) and the Top Cover (B).

The Print Head Holder (C) comes out. (This is where you install the Print Head.)

- The Print Head Holder makes a noise as it moves. This is normal operation.

2



Raise the Print Head Lock Lever (D).

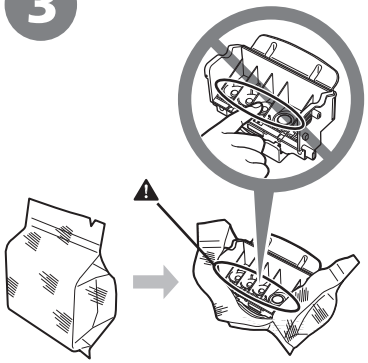
- Firmly raise the Print Head Lock Lever until it stops. (The Print Head Lock Lever may feel heavy.)

- If the Print Head Holder does not move, make sure that the printer is turned on.

Downloaded from ManualsPrinter.com Manuals

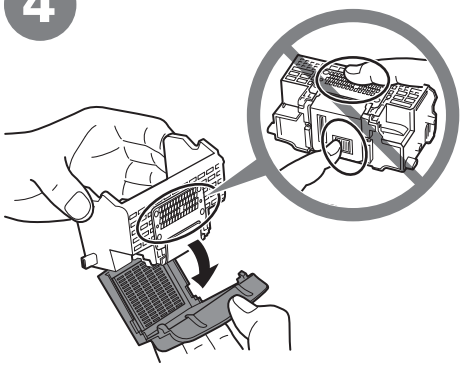
3 Install the Print Head

3



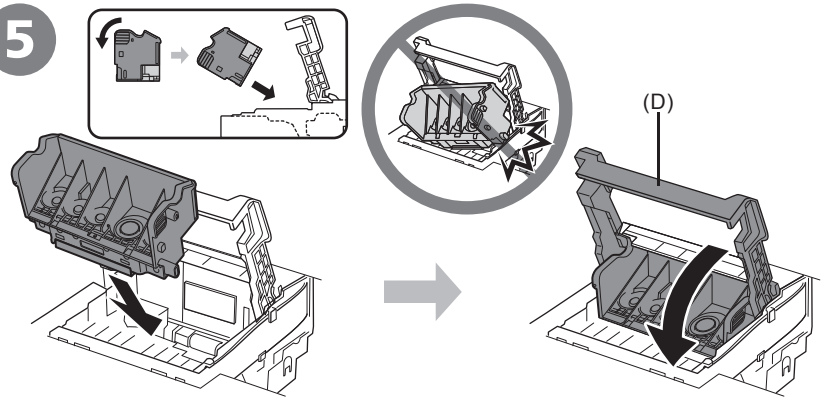
Remove the Print Head from the silver package.

4



Remove and discard the orange protective cap.

5



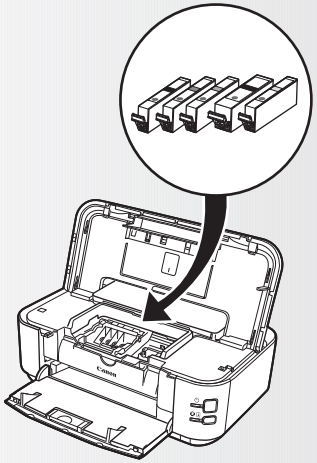
Tilt the Print Head and set it in place. Lower the Print Head Lock Lever (D) completely.

- There may be some transparent or light blue ink on the inside of the bag the Print Head comes in, or the inside of the protective cap - this has no effect on print quality. Be careful not to get ink on yourself when handling these items. Be careful not to stain your hands.

- Do not knock the Print Head against the sides of the Holder.
- Pinch the Print Head Lock Lever firmly and lower it gently.
- Once you have installed the Print Head, do not remove them unnecessarily.

Downloaded from ManualsPrinter.com Manuals

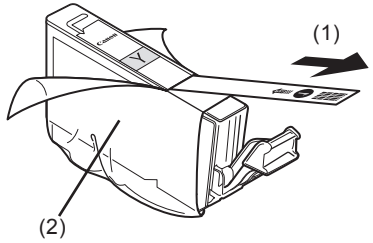
4 Install the Ink Tanks



- Do not handle the ink tanks roughly such as applying them excessive pressure or dropping them.

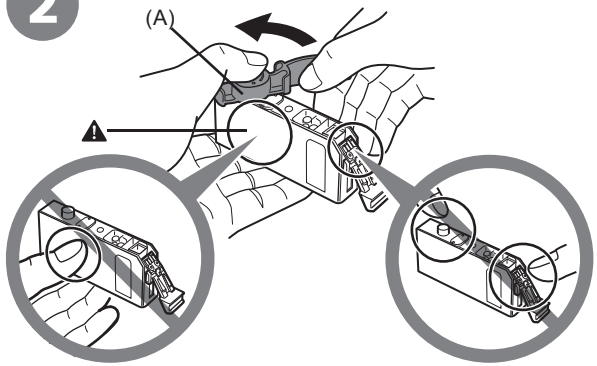
- If the Print Head Holder moves to the right, close and reopen the Top Cover.
- Be sure to use the supplied ink tanks.

1



Pull the orange tape (1) in the direction of the arrow to peel off the protective film and remove the film (2) completely.

2



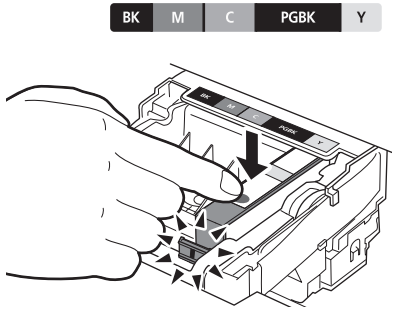
While pressing down with your left thumb, twist off the orange protective cap (A) located on the bottom of the ink tank.

- Do not hold the sides of the ink tank; ink may splash.

Downloaded from ManualsPrinter.com Manuals

4 Install the Ink Tanks

3 Install the Ink Tank

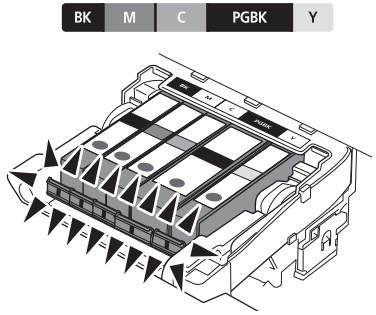


Press the **PUSH** mark on the ink tank until it clicks into place.

Make sure the **Ink** lamp lights red.

- Match the labels when installing.

4



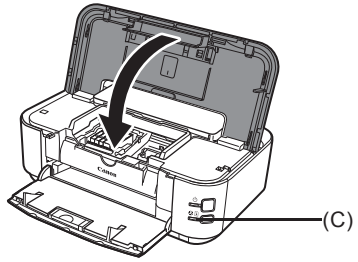
Install all the other ink tanks in the same way.

Install all the ink tanks.

- Once you have installed the ink tanks, do not remove them unnecessarily.

- Make sure all the **Ink** lamp lights red.

5



Close the Top Cover.

- Wait until the **POWER** lamp lights green (about 6 minutes) and go to the next step.
- The printer may make some operating noises when preparing to print. This is normal operation.

- If an **Alarm** lamp (C) flashes orange, make sure that the Print Head and the ink tanks are correctly installed.

Downloaded from ManualsPrinter.com Manuals

5 Install the Software

To use the printer by connecting it to a computer, software including the drivers need to be copied (installed) to the computer's hard disk.

The screens below are based on Windows Vista operating system Ultimate Edition (hereafter referred to as "Windows Vista") and Mac OS X v.10.5.x.

- Quit all running applications before installation.
- You need to log on as the administrator (or a member of the Administrators group).
- Do not switch users during the installation process.
- It may be necessary to restart your computer during the installation process. Follow the on-screen instructions and click **OK**, and do not remove the *Setup CD-ROM* during restarting.
  The installation resumes from where it left off when your computer has been restarted.
- Mac OS 9, Mac OS X Classic environments, or Mac OS X v.10.3.8 or earlier are not supported.

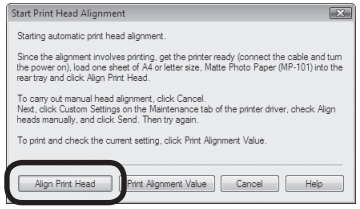
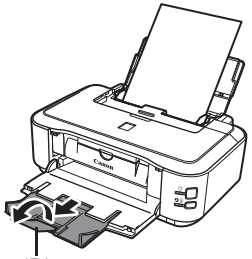
11



Start Print Head Alignment
Starting automatic print head alignment.
Since the alignment involves printing, get the printer ready (connect the cable and turn the power on), load one sheet of A4 or letter size, Matte Photo Paper (MP-101) into the rear tray and click Align Print Head.
To carry out manual head alignment, click Cancel.
Next, click Custom Settings on the Maintenance tab of the printer driver, check Align heads manually, and click Send. Then try again.
To print and check the current setting, click Print Alignment Value.
Align Print Head
Print Alignment Value
Cancel
Help



When the **Start Print Head Alignment** screen appears, click **Align Print Head**.

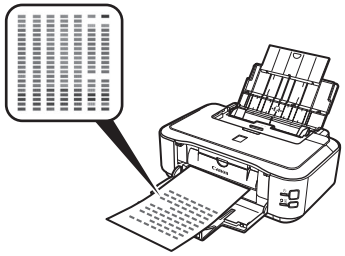
Click **OK** in the subsequent message.

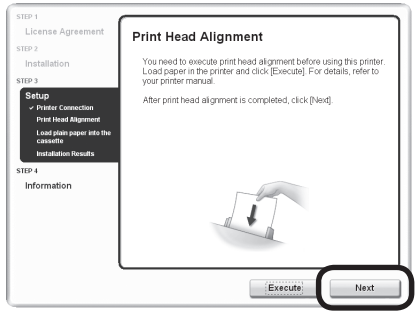
Printing of the pattern starts.

- Wait until the pattern printing ends (about 7 minutes), and go to the next step.

- Make sure that the Output Tray Extension (D) is extended.

12





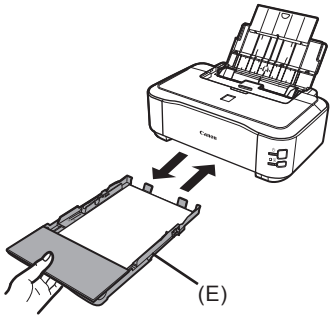
Make sure that the pattern shown is printed, then click **Next** on the **Print Head Alignment** screen.

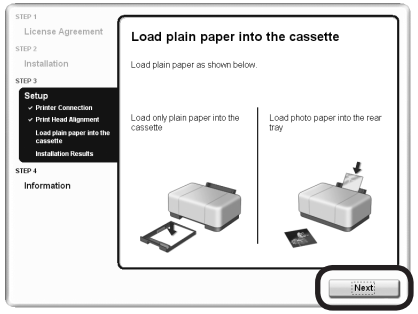
Print Head Alignment is now complete.

- When Print Head Alignment cannot be executed properly, the **Alarm** lamp will flash orange 11 times. In this case, refer to "When Printing Becomes Faint or Colors Are Incorrect" in the on-screen manual: *Basic Guide*.
- The pattern is printed in blue and black.

Downloaded from ManualsPrinter.com Manuals

13





When the **Load plain paper into the cassette** screen appears, load plain paper in the Cassette (E) and click **Next**.

- For details, refer to "6 Loading Paper" on page 22.

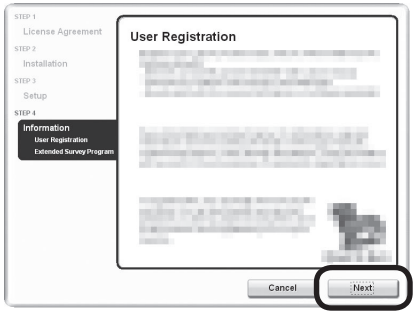
14

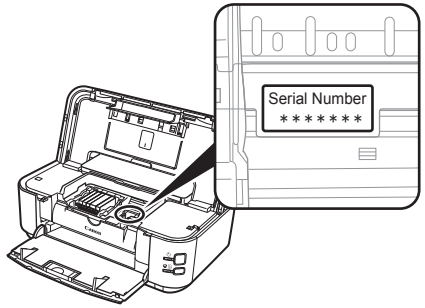
Click **Next**.

It may take a while for the next screen to appear. Click **Next** only once.

Downloaded from ManualsPrinter.com Manuals

15





Click **Next**.

If connected to the Internet, the user registration page appears. Follow the on-screen instructions to register your product. You will need your product serial number, which is located on the inside of the printer.

- Internet connection is required. (Connection fees apply.)

- To register later, click **Cancel**. User Registration can be started from the Solution Menu icon. For details, refer to "Solution Menu" on page 26.

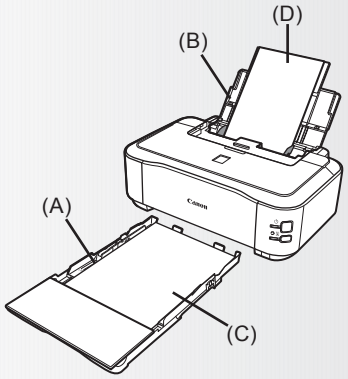
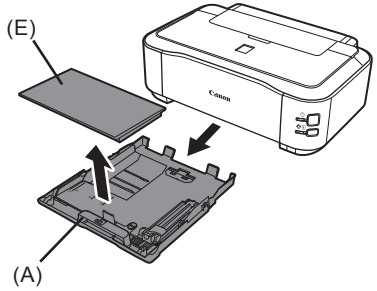
6 Loading Paper

This section explains how to load paper in the Cassette (A) and Rear Tray (B).



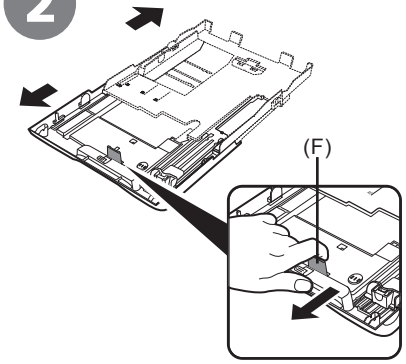
The Cassette (A) supports plain paper (C) only. To print Photo Paper/Hagaki (D), be sure to load it in the Rear Tray (B).

1 Load in the Cassette



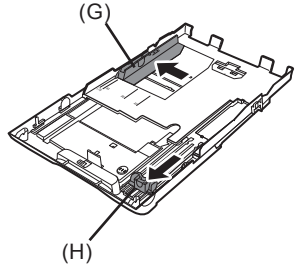
Pull out the Cassette (A) and remove the Cover (E).

2



Pull the Tab (F) in the direction of the arrow and extend the Cassette.

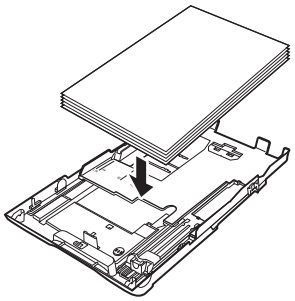
3



Move the Paper Guides (G) and (H) to both edges.

Downloaded from ManualsPrinter.com Manuals

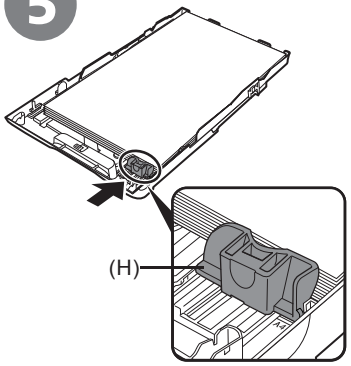
4



Load paper.

- Load paper with the printing side facing down.

5

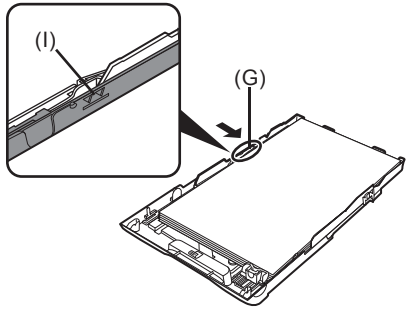


Slide the Paper Guide (H) to align with the mark of paper size.

The Paper Guide (H) will stop when it aligns with the corresponding mark of paper size.

- There may be a little space between the Paper Guide and the paper stack.

6

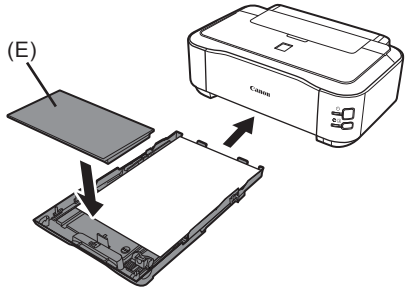


Slide the Paper Guide (G) against left edge of the paper.

Do not exceed the Load Limit Mark (I).

- To print on speciality paper, be sure to load it in the Rear Tray.

7

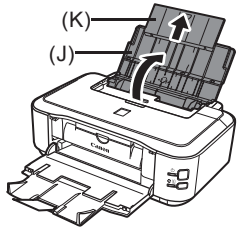


Attach the Cover (E) and insert the Cassette into the printer until it clicks into place.

Downloaded from ManualsPrinter.com Manuals

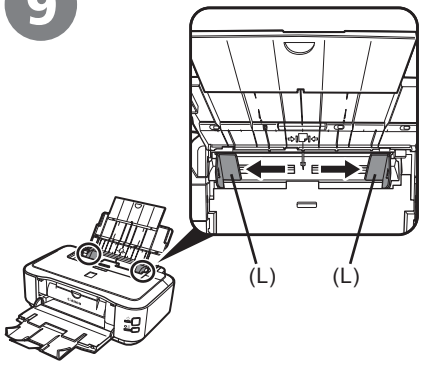
6 Loading Paper

8 Load paper in the Rear Tray



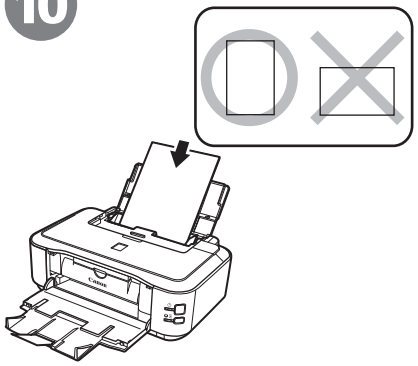
Open the Rear Tray Cover (J), and pull up the Paper Support (K).

9



Move the Paper Guides (L) to both edges.

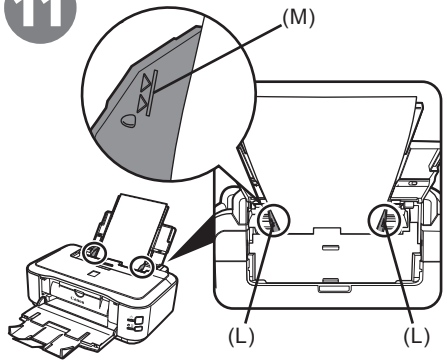
10



Load paper in the center of the Rear Tray.

- Load paper in portrait orientation with the printing side facing up.

11



Slide the left and right Paper Guides (L) against both edges of the paper.

Do not exceed the Load Limit Mark (M).

- For details on media sizes and types you can use, refer to "Loading Paper" in the on-screen manual: *Basic Guide*.

Printer installation is now complete!
